I don't know who when and how it starts, I don't know...
We must beat for each other and I stay,
We'll take a new bag a fly away!

I ask myself what I'm gonna do.
I'm gonna go out and lookin' for you.
If you wonder where I am...
I am here, here for you...

We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to!
We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to!

Come on!

Why don't you give me a call?
Say "Here I am!"... Here I am...
That's the boring thing that I didn't know...
Until now!

We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to!
We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to!

We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to.!
We don't have to talk about it!
We don't have to think about it!
We don't have to, we don't have to, we don't have to!
