Forget everything you ever learned in school
I don't need no lessons, I don't want no rules
I'm gonna show you something, you gotta understand
Well, I'll love you better than your other girl can

I been on the road, well I been around
I ain't no little child, I can really get down
When are you people gonna understand
I'll love you better than your other girl can

I see the way you hang onto her, baby
You know it makes me sad
I can tell by the look in your eyes
You miss somethin' you never had

I ain't no highbrow, I ain't a tease
I know what you're beggin' down on your knees
If you really wanna be my man
Well I'll love you better than your other girl can

Don't leave me hangin' down on a ledge
I'd rather you go and push me over the edge
If you really wanna be my man
Well I'll love you better than your other girl can
Well I'll love you better than your other girl can
Yes I will
You know that I will baby
Yeah
