Not a single cloud above, everyone's so in love,
man it's good to be alive.

Smiling faces all I meet as I go dancing down the
street,

angles singing by my side.

Cause you make me happy, and you make it real.

Baby

Each time we meet, feels so sweet to me

Mmm it's Heavenly.

Each little glance, when you dance with me

Yeah it's Heavenly.

Hello world I'm back again try and catch me if you can,

angles teaching me to fly.(Sky High)

Wanna take a ride with me,

make the stars our destiny

we'll see magic in the night.

Cause you make me happy, and you make it real

and you've got that special feel.

(CHORUS)

-Rap start -

So here I stand and i'm-a-thinkin' to myself,

in my world you rock like no-one else,
I wanna d-d-d-dance forever you see,
so won't you share a little groove with me, Come on.

Give it to me

Give it to me

Give it to me now.

Can't you see

Can't you see

Can't you see now.

I wish tonight would't end so soon

Cause' when you say my name my heart goes Boom-
boom-boom!
