Time is changing everything

It's changing you and me

It's moving all around us

Keeps moving endlessly

But nothing's ever gonna change the way I feel inside

The memory is always gonna be alive

CHORUS

When I remember you (these are the best days)

I'll remember love (these are the best days)

I'll remember how you always gave it all you got

(these are the best days of our life)

I'll remember all the good and bad times

The happy and the sad times

And how you taught me to remember these are the  
best days of our lives

When I walk beside you

When I hold your hand

When I'm not sure what to do

You simply understand

No matter where my life may lead

No matter where I go

The memory will still be there for me to hold

These are the best days

These are the best days

These are the best days

These are the best days of our life

Time is changing everthing

It's changing you and me

But nothing's ever gonna take that away from me

CHORUS
