"She"

In a silent moment

I see consolation ...in a dream of two

She winds my clock up

Stepping right up ...and I say to you

(chorus)

Soothe me... dance me

I want you to raise me

Feel me cold feel warm

In the tempest; the eye of storm

My silent moment

My s-i-l-e-n-t moment

The eye of wisdom

Is far from wholesome ...says the heart

Shiver me like a breeze

A lady summer tease ...and when you part

(bridge)

Break down the walls

The loving calls

She sends the sun

I come undone

Blinding factor

The roughed up rapper

Quivers like a tree

Windy lover ... she
