Long time comin'
But no one seen it comin'
Long gone then
And your heart is still runnin'

Now you're thinkin' 'bout the times
And the things you should've done
Well you might as well forget it
In the end you have won
Ohh

Long gone letters
Well it makes you feel better
Now you spend your day you calm
But you spend the night shattered

It's a long time now
To be left in no doubt
It's a long time change
Do you still feel the same?

And you just can't shake that mood
'Cause she's poisoned all your food
Now you're bogged down in those blues
And you just can't shake 'em loose
It's a long time comin'
Ooo yea

It's a long time now
(Ohh)
To be left in no doubt
(Ohh)
It's a long time change
(Ohh)
Do you still feel the same?
(Ohh)
Long time comin'
Ooo aah
