"Transcendental War- Battle Between Gods"

Visit "[Transcendental War- Battle Between Gods](#)" on MotoLyrics.com

The snake and the deers, corroding on the tree of the world.

It's your symbol of cosmos, axis-mundi.

The downfall of the powers, representation unparalleled.

Catastrophes of nature, battle between gods, social dissolution.

It's a coming, a second coming.

Stronghold of the world in ice and cold.

Time of axe, time of sword,

a wolf on chase, a world on fire,

extinguished only when the land is sinking.

Development back to chaos, it's your illusion, somebody else's disillusion.

An alleged opposition between powers

Appearances without masks.

No one trying to harmonize latent conflicts.

Origin and creation, explanation of the later development.

Cosmic model, primordial murder.

Irreversible time, a different material foundation.

Time is not returning, the new world will rise once and for all.
