They comming to get you
You'd better hide
They looking for you
You can't get out
They gettnng closer
You gotta run
They gonna get you
The end is done

Death is coming,
Comming your way
Death is comming
To take you away

They blow your head off
You won't survive
The serial killer
Dead or alive
The scream of panic
The fear in your eyes
The scream of pain
Cut in your vein

Death is comming
Comming your way
Death is comming
To take you away

Death is comming
Comming your way
