All my people right here and right now -
Let's stop this fight before our time is through

1-2-3-4

You and I maybe the only ones to rise above this
madness called hate
Still I hope that we're not the only ones to hear the bells
of liberty reverberate

All my people right here and right now -
Let's stop this fight before our time is through
If the price of peace is violence I'm not gonna buy it
Let's end this hate before our time is due

Well let's try understanding for a change
The point of view of other people's lives
And this might not be what you see as a truth
But let's try not to stereotype realities

All my people right here and right now -
Let's stop this fight before our time is through
If the price of peace is violence I'm not gonna buy it
Let's end this hate before our time is due

Yeah try understanding for a change
Oh yeah use some compassion for a change

Yeah try understanding for a change
Oh yeah use some compassion for a change

We know that we've gone so far astray
Its true humanity thats lacking in our lives
And you know I can't do this all alone
It's up to you and I to end this fucking fight

All my people right here and right now -
Let's stop this fight before our time is through
If the price of peace is violence I'm not gonna buy it
Let's end this hate before our time is due

All my people right here and right now -
Let's stop this fight before our time is through
If the price of peace is violence I'm not gonna buy it
Let's end this hate before our time is due

1-2-3-4

All my people right here and right now -
Let's stop this fight before our time is through
If the price of peace is violence I'm not gonna buy it
Let's end this hate before our time is due
