well tonight, we'll wave goodbye
while the fireflies light up the night
the breeze, is just right
for one more conversation
yeahh
we'll hug, we'll wave goodbye
while the memories we'll keep
this one, well that one
for another perfect night
and i'll walk away so happy
and you'll drive away so dizzy
in the moment
won't you spend your moment with me
with me
for now, we'll say goodbye
be careful what you wish for
goodbye, for now(for now)
be careful what you wish for
we wish for
in a perfect world
we'll rise above
to greet the morning light
romance
well this time
don't say a word but goodbye
and i'll walk away so happy
while you drive away so dizzy
in the moment
won't you spend your moment with me
with me
for now, we'll say goodnight(we'll say goodbye)
but be careful what you wish for
goodbye(goodbye), for now(for now)
and be careful what we wish for
we wish for
in a perfect world we will rise up to the sun
and i'll walk away so happy
and you'll drive away so dizzy
in the moment
won't you spend your moment with me
for now, we'll wave goodbye

but be careful what you wish for
goodbye, for now
be careful what you wish for
for now, we'll wave goodbye
but be careful what you wish for
goodbye, for now
but be careful what you wish for
