Everything about her was natural  
Everything about her was cool  
But I'm a little partial for beautiful girls  
Even if their blood runs blue

I think I see her  
I think I want her  
I think I love her  
She's just killing me  
I think she's killing me

Her castanets are enormous  
Her bongo beat absolute  
And when she doin' midnight performances  
She's got a secret somethin' to boot

I think I see her  
I think I want her  
Oh, I think I love her  
But she's just killing me  
I think she's killing me

Miss Satanic Pandemonia  
Don't get any lower or slower  
What you see, what you get conmigo  
And the bonus of an albino boa

I think I see her  
I think I want her  
Yes, I think I love her  
She's just killing me  
She's just killing me  
That's some time I had

I think I see her  
I know I love her  
Yes, I might love her  
She's just killing me  
She wanna be killing me  
Suck my blood
