If I could take us back to that night, I'd set the mood for  
this romantic evening.

I've set the plans, met demands, held your hands,  
looked deep in your eyes.

I said I loved you, but I lied.

I said I'd never leave your side. (This can't get any  
easier)

I'll help you with your way through this burning house.

I fueled the flame, cried in shame, and held you 'till  
you slowly and lonely died.

Your coffin case is not the same until I've held you in  
embrace.

And trust is just a word for me.

Existence is so far fetched to believe.

And when I go to sleep I dream, at least I think.

My self-esteem is growing weak. (Oh god, I can't  
believe this)

I'll help you with your way through this burning house.

I fueled the flame, cried in shame, and held you 'till  
you slowly and lonely died.

Your coffin case is not the same until I've held you in  
embrace.

Let's take some time to define our lives.

Take a step towards what's wrong and right. (x4)

I'll help you with your way through this burning house.

I fueled the flame, cried in shame, and held you 'till  
you slowly and lonely died.

Your coffin case is not the same--

I'll help you with your way through this burning house.

I fueled the flame, cried in shame, and held you 'till  
youslowly and lonely died.

Your coffin case is not the same until I've held you in  
embrace.
