Whatever we wanted, we didn't find  
The thing that we've looked for  
Is still in our mind

But I don't mind if I'm with you my love  
I won't worry where we are  
As long as you're near

We're looking for something, We can't explain  
Walk in the sunshine, laugh at the rain

As long as I can see your smile my love  
I don't mind where we are  
As long as you're near

We've travelled this great big world  
All across the sky  
I never found anything, to match your eyes

I don't mind if I'm with you my love  
I don't care where we are  
As long as you're near
