Don't get on your flight
Lets kiss a little longer
There you go looking so beautiful

I just wanna be inside of you
I just wanna be inside of you
So push me over,Im falling under
This is what we do

Don't forget all the movies we saw
Don't forget all the times I admit I was wrong
Don't forget I was sad and enjoyed the moment
Don't forget all the packages we sent
But more than anything,than anything
Oh how we made the earthquake,the earthquake

I just wanna be inside of you
I just wanna be inside of you
So push me over,Im falling under
This is what we do

There is nothing else that I can say
Stay in L.A.
If you leave who will be here for me?

I just wanna be inside of you
I just wanna be inside of you
I just wanna be inside of you
So push me over,Im falling under
This is what we do

I just wanna be inside of you
I just wanna be inside of you
So push me over,Im falling under
This is what we do
