

## Summer Set, The "Lights"

Visit "[Lights](#)" on [MotoLyrics.com](https://MotoLyrics.com)

just keep me close tonight  
under the covers, she said lets make this right  
'cause we're all we'll ever need  
and we got time

so keep the lights down low  
oh, oh you know, you do this to me  
so speak up if you feel the way i feel  
we've never loved like this

dont hurry just slow it down now  
we've got time to make our move  
dont hurry just slow it down now  
step back oh its time we're wasting

you know the cold night air  
its not the only thing making me shake  
we could be anywhere  
from LA lights to Arizona skies  
'cause were all we'll ever need  
the two of us on a silver screen  
so stay close, dont forget it  
dont forget it, you've got me

so keep the lights down low  
'cause this is all we'll ever need  
so keep the lights down low oh oh
