Hey there, let me break it down
Oh, you're the song in my head
Move a little bit closer,
I don't want to miss a beat

Take everything you know
Throw it out the window
We can drive through the streets
The space between,
You're the only girl I'll ever need

Give me looks, give me everything you've got
Ready set let's go
So get on your feet
I'll take it to the floor
Oh here we go

When everything's alright,
I'll take the weight of the world off your shoulders
Let's make it count oh, let's make it count
I'll show you that you're worth it

Take everything I know,
I'll throw it out the window,
Alright

We're gonna get closer now,
Just a little bit closer
We're gonna get closer now,
Just a little bit closer
Just a little bit closer
