[Mo]

This song goes out to that boy  
Who used to laugh at me!  
Pull my hair, snap on my gear  
Yeah shouldn't have wrote this song  
But laugh now baby, laugh now

Oh, oh you used to play me like minimum wage  
Played me out like a high top fade  
You weren't try-na hear nothing I had to say  
And ooh you used to laugh at my little shape  
My DNA was flatter than pancakes  
Now you say I'm off the chain  
And I blow you away

1 - Cause back in the day  
You wasn't try-na see me  
Now you got so much to say  
Could it be the money?  
Could it be the videos?  
Could it be the fly cars?  
Could it be you want me cause baby you're just starstruck?

Now you be try-na get backstage  
My, my look at how things have changed, hey  
What can I say? What can I say?  
I done grewed up and filled out in every place  
Now you want to be in my face  
You want to get up in my DNA  
Cause you see I'm paid

Repeat 1

I know that you're Bentley wannabe on my squad  
Cause you see we're rolling deep  
But too bad you can't be down with me  
Sorry, sorry  
If you had a been much more good to me  
When I, I was nothing  
Don't sweat my technique

Cause you wanna be down with me

[Mo](Missy)

I know, I know

You wanna be down

For sure, for sure

I know, I know

(Yo)

You wanna be down

(No, no...)

For sure, for sure

[Missy Elliott]

I'm the bitch like I told ya

Why you all up in my grill like I know ya?

And them styles that you kick I did before ya

All that junk that ya talkin' ya need to slow it up

I used to be a nobody till I blowed up

Every show that I do a million shows up

They say Missy how you've done tore up

I blow through like a vroom bulldozer

Soldier, make it hot like a solar

I break it down, break it down to the floor uh

Smell musty motherfucker naw show ya

The funky feeling worth a million and some more

Gettin' tipsy off of Henney then I throw it up

I call home BLING BLING got me shining up

Call Mo BLING BLING then I shine it up

I keep a fo' for life then nail when it's time to fuck

Star struck!

Repeat 1 (2x)

Ow! Yeah, yeah

Laugh now baby

Laugh now baby, uh-huh

Laugh now baby
