You found a home in outer space  
Where you can stay high all day  
Slowly walkin' down that hall  
And suddenly you're feelin' better

In western skies  
Across the night  
You know a place to go, oh

You found a home in outer space  
Where you can stay high all day  
Slowly walkin' down that hall  
And suddenly you're feelin' better

Toward the west  
The sun will set  
I know a place to go, oh

You found a home in outer space  
Where you can stay high all day  
Slowly walkin' down that hall  
And suddenly you're feelin' better
