You left me again,
Outside is raining,
It's really hard
To think that you have always been in my heart
And now you aren't here,
I think this time I've lost you
And you'll never come back to me again
You'll never come back

People love you,
But you don't have a real friend,
Maybe I was the only one
To believe in you
And now you aren't here,
You've gone without leaving a message
And now my soul weeps all the day long
All cause you've gone

I feel alone
How can I go on?
I'm losing hope
And I have never felt so,
felt so
I have never been so lost

I'm alone again,
The sun is shining,
It's really cold,
I feel the killing air
Brush and run on my dead skin
And now you aren't here
I know this time I've lost you
And you'll never come back to me again
You'll never come back

You lived on my mind,
You've always made me strong
And I have never given in,
I don't know how can I go on.
