I've got a four leaf clover  
I hung a horseshoe on the wall  
I threw salt over my left shoulder  
I'll try anything at all  
To get lucky with you  
I want you so much  
Untill you want me too  
I aint gonna give up

(Chorus)

I'll throw another nickel int he well  
Tell myself this time maybe it'll help  
TO make my dreams come true  
I'll make another wish upon a star  
Just in case you're out in your backyard  
Lookin' up there too  
With a lot of love and a little luck  
You'll fall like i fell  
I'll just cross my fingers  
and throw another nickel in the well

If i could get Houdini  
To teach me a trick or two  
Then maybe you would see me  
In the way i want you to  
Gonna knock on wood  
It aint been easy  
I've done everything i could  
To make you need me

(Chorus)

With a lot of love and a little luck  
You'll fall like i fell  
I'll just cross my fingers  
And throw another nickel in the well

Yeah Just cross my fingers  
And throw another nickel in the well
