i think she smokes, its just a little-small craze
i think im drinking, just to get the name
she looks at me funny, like jesus up in the clouds
this is no fortress fall, but feeling here is lost

so get me to a nother review bitch
i drank myself to sleep a thousand times
broke my foot runnin after you
but i cant seem to get u off my mind

i might even be my own worst enemy
standing in the corner of my shame
i might even be my own worst enemy
cuzz i really thought u could keep me sane

she looks at me funny and says
" i think of u like my therapist"
i laughed she didnt
