and when im hanging by a thread
tied to machins ang half dead
just when u think its my final act
dont pull the plug im coming back

stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm
stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm

ill not go down with out a fight
my will is my pre emptive strike
ill not go down with out a fight
ill not go drifting into the good night

and when u think i cant go on
and when u think im not that strong
i will not die by my own hand
ill hold my ground ill make my stand

stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm
stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm

ill not go down with out a fight
my will is my pre emptive strike
ill not go down with out a fight
ill not go drifting into the good night

stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm
stick to the wheel cuzz this wont even hurt
not goin down with a needle in my arm x2

ill not go down with out a fight
my will is my pre emptive strike
ill not go down with out a fight
ill not go drifting into the good night x2
