

Whitlams, The

"Make The World Safe"

Visit "[Make The World Safe](#)" on MotoLyrics.com

I know they all want you
With your Desdemona's eyes
I'll keep you from danger
And shield you from prying eyes

I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Nothin' bad'll happen now

I've got a problem
I think you know how I feel
Plans piling up in the corner
Eyeballing me every hour

I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Nothin' bad'll happen now
Nothin' bad'll happen now

I've got a balcony (got a balcony)
And an orange tree (and an orange tree)
You can save up and visit New York with me (visit New
York with me)
You can save up and visit New York with me (visit New
York with me)

I can make the world safe for you (I can make the world
safe for you)
Nothing bad at all

You've got no money
So I know how you feel (feel)
When you see the glitter (turn around)
Turn around it's no big deal

I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Nothin' bad at all (bad at all, come and live over here)

I can make the world safe for you (I can make the world
safe for you)
Come and live over here
I can make the world safe for you (I can make the world
safe for you)
Nothin' bad'll happen now
Nothin' bad'll happen now

I can make the world safe for you
Come and live over here
I can make the world safe for you
