"The Lights Are Back On"

Visit "[The Lights Are Back On](#)" on MotoLyrics.com

We made love for an hour
Everything went quiet at once
So good to be lying
Happy and sane in your arms

I don't care what they do
Just being here with you
It's news to me
Tell everybody
The lights are back on

We made civic art
Under a streetlight
Something for the drivers tonight
Monday's my Sunday
I don't have a thing to do
But try and get up
While it's still light

I don't care what they do
Just being here with you
It's news to me
Tell everybody
The lights are back on
It's news to me
Tell everybody
The lights are back on

Dearheart,
How I've been everywhere

I don't care what they do
Just being here with you
It's news to me
Tell everybody
The lights are back on
