I plunge into your ocean
Fall backwards from within
Flesh feared from my fingers
I think a fin

Suspended in your space
The starfish to your sun
I feel the pull of deeper depths
Before my life's begun

I'm rolling to your heartbeat
I'm dancing in your blood
I'm breathing in your water
My mother and my god

My mother and my god
My mother and my god
My mother and my god

Suspended in your space
The starfish to your sun
I feel the pull of deeper depths
Before my life's begun

I'm rolling to your heartbeat
I'm dancing in your blood
I'm breathing in your water
My mother and my god

My mother and my god
My mother and my god
My mother and my god

Hurt over me
Watch over, oh watch over me
Watch over, oh watch over me
