the things you do give me chills and they multiply at  
least 10 times at night when you near

there are things i wont you to hear and when you tell no  
it breaks my heart cause your mine

and im yours and there is nothin that could take that  
away unless you tell me that you no

longer care then i say good bye get the fuc\* out and  
you say why dont you leave instead of me

then i say just because your not that good to me  
anyway but i still love you more than life its self and i  
would die for you tonight

i just wont to say i love you!!!!!!!!!!!!!!!!!!!!!!
