I won't dance because you didn't tell me why you  
held his hand  
Speak soft and quiet if you can, my headache  
still kills me bad  
Pictures here, pictures there, pictures everywhere  
Always reminds us of the time we shared

There's a way, but why should we take it  
There's a way, but we still keep waiting  
There's a way, but why should we take it  
There's a way, but we still keep waiting

Please stop talking you know  
just how I feel  
send me a letter of your arguments you know just,  
were I'll be  
I've started smoke again and I'm actually where I  
want to be

There's a way, but why should we take it  
There's a way, but we still keep waiting  
There's a way, but why should we take it  
There's a way, but we still keep waiting  
Still keep waiting  
Still keep waiting

There's a way to leave this behind,  
And a way to get you out of my mind  
There's a way to leave this behind,  
And a way to get you out of my mind  
To leave this behind,  
But how can I know what's right for me?  
When you turned me into something I can't be

There's a way, but why should we take it  
There's a way, but we still keep waiting  
There's a way, but why should we take it  
There's a way, but we still keep waiting
