Wanna quit and give up
Simon says to pack it up
Shot down from all sides
Don't know why I try
So take this and kiss it
Goodbye won't miss it
I wanna go back to L.A.
I don't belong that's what they say

Chorus:

They said don't try to change the world
You're just a girl
So it's..me against the world today
I'm gonna do it my own way
And though nobody understands
I'm gonna make a one girl stand
It's not Independence Day
I can't waste time on what they say
If we believe when we have faith
We're gonna change the world someday

Back again one more time
Couldn't keep me down last time
Leaving what I know on faith
To take on the world and make waves
Still standing defiant
Maybe me against the giants
L.A. wasn't built in a day
Games going long but I still play

(Chorus)

(echo) If we believe, when we have faith
We're gonna change the world someday

(Chorus)
