you're bored, gotta wonder if there's more  
waiting for the dreamlife you thought you had in store  
trying to feel something you can chase a life thats  
thriller  
living on the edge drinking, smoking dream killers  
coulda been shoulda been woulda been,  
what might your life have been  
today you're not a has been  
but at your life's end  
will you have regrets then, have regrets then?  
are you ok with today if tomorrow is the end  
live today through the future's lens  
don't wanna wish you could rewind and play it again

[chorus]

stand up write the soundtrack for your life  
it doesn't happen to you you happen to life  
stand up, you know you're gonna have to fight  
don't wanna lose the will to find your light  
stand up, God gave you the gift of life  
it doesn't happen to you, you happen to life  
stand up, do something with your light  
you're a light on a hill, you're meant to shine so bright  
so bright so bright so bright so bright so bright so  
bright so bright

we're all scared, gotta wonder what's out there  
shooting down the ones who did what we wish we  
dared  
everybody's scared to karaoke in the open  
afraid we're not as special as what we might be hoping  
so we're frozen, haven't chosen  
just going through the motions  
faith and belief, courage overrule emotions  
stand up and be counted for something when it's time  
decide where you stand, take your hands raise em  
high  
live today through the future's lens  
don't wanna wish you could reset and play it again  
[chorus]
