Doctor, there's something wrong with me  
My health is not all that it used to be  
My heart is out of beat, I got chokers on my feet  
My eyesight's getting dimmer, I can't see

Doctor thanks for seeing me today, I'm glad,  
I've got every sickness there is to be had  
I had whooping cough last month  
And today I've got the mumps  
And tomorrow I'll catch chicken pox as well.

Doctor doctor doctor make me well  
I've not got long to go now I can tell  
Doctor doctor doctor make me well  
I've not got long to go I can tell  
I've not got long to go I can tell

Those pills I took have no effect at all  
Just the other day I had a nasty fall  
And I think I broke my jaw when it hit the kitchen floor  
And I'm shrinking last week I was five foot four

I've been getting shivers lately, is it flu?  
I know the bug is going round, what can I do?  
It's about to pick on me, I've still got the other three  
Do you think I caught smallpox I'd get flu?

[chorus]

Do you think it's time that I made out my will?  
I'll leave everything to you to pay my bill  
Just how long is there to go  
Please tell me I want to know  
But on second thoughts don't tell me, I'm too ill.
