

## Who, The "Endless Wire"

We found this pile of paper  
Written by the Ether Man  
He hatched a mad old caper  
He had a mad old plan

He'd turn us in to music  
He'd show us to our portals  
He gathered wire and angels  
To entertain immortals

Out on the endless, endless  
Out on the endless wire  
Out on the endless, endless  
Out on the endless, endless, endless, endless wire

Out on the endless, endless  
Out on the endless wire  
Out on the endless, endless  
Out on the endless wire
