On top of the sky is a place where you go  
If you've done nothing wrong  
If you've done nothing wrong  
And down in the ground is a place where you go  
If you've been a bad boy  
If you've been a bad boy

Why can't we have eternal life  
And never die  
Never die

In the place up above you grow feather wings  
And you fly round and round  
With a harp singing hymns  
And down in the ground you grow horns and a tail  
And you carry a fork  
And burn away

Why can't we have eternal life  
And never die  
Never die

On top of the sky is a place where you go  
If you've done nothing wrong  
If you've done nothing wrong  
And down in the ground is a place where you go  
If you've been a bad boy  
If you've been a bad boy

Why can't we have eternal life  
And never die  
Never die  
Never die
