When you here the sound a coming  
Hear the drummers drumming  
I want you to join together with the band  
We don't move in any particular direction  
And we don't make no collections  
I want you to join together with the band

Do you really think I care  
What you mean or what you wear  
I want you to join together with the band  
There's a million ways to last  
And every one's a path  
Come on and join together with the band

Join together, I want you to join together  
Come on and join together with the band  
We need you to join together, join together  
Join together with the band

You don't have to play  
You can follow or lead the way  
I want you to join together with the band  
We don't know where we're going  
But the season's right for knowing  
I want you to join together with the band

It's the singer not the song  
That makes the music move along  
I want you to join together with the band  
This is the biggest band you'll find  
It's as deep as it is wide  
Come on and join together with the band

Join together, join together  
Join together with the band  
We need you to join together, join together  
Join together with the band
