

Who, The "Naked Eye"

Take a little dope
And walk out in the air
The stars are all connected to the brain
Find me a woman and lay down on the ground
Pleasure comes falling down like rain

Get myself a car, I feel power as I fly
Oh now I'm really in control
It all looks fine to the naked eye
But it don't really happen that way at all
Don't happen that way at all

You sign your own name and I sign mine
They're both the same
But we still get separate rooms
You can cover up your guts
But when you cover up your nuts
You're admitting that
There must be something wrong

Press any button, milk and honey flow
The world begins behind your neighbor's wall
It all looks fine to the naked eye
But it don't really happen that way at all
Don't happen that way at all

You hold the gun and I hold the wound
We stand looking in each other's eyes
It all looks fine to the naked eye
But it don't really happen that way at all
Don't happen that way at all
