

## Supervillains, The "Wormhole"

Visit "[Wormhole](#)" on MotoLyrics.com

What you say it probably should be said immediately  
don't send me a messenger cause that kid will mess  
it up you try to speed it up thinking about where we  
are going to but here we are and now is what we should  
be thinking of

Walk away but you cant walk away from gravity hold  
you down I'll make you understand that this is now  
don't think about evolving situations carried out loving  
me is all I really think that you should need

I just follow the road not to see where places go I'm  
just watching today I wont be missing this journey
