Now I'm hiding behind your stair case
Waiting to tell you something you'll never believe
I've got a right to tell you about me
The world can over whelm, but I don't care

You can't turn off, that you're dead
You just deal with it, deal with it

Thought I was dreaming
My heart stopped beating
But I've got this feeling
I was put here for you
I've got a secret
You won't believe it
But I've got this feeling
I was put here for you

I see the time line of your whole life
I admit that there's more than a scratch I left behind
But there's a point you can't swim away from
And I know you feel, the world let you go

You can't turn off, that you're dead
You just deal with it, deal with it

Thought I was dreaming
My heart stopped beating
But I've got this feeling
I was put here for you
I've got a secret
You won't believe it
But I've got this feeling
I was put here for you

The ghost of what I left behind
Is dragging me right back next to you

Believe me
It's the truth I swear
Believe me
It's the truth I swear
Deal with it

Thought I was dreaming
My heart stopped beating
But I've got this feeling
I was put here for you
I've got a secret
You won't believe it
But I've got this feeling
I was put here for you

Thought I was dreaming
My heart stopped beating
But I've got this feeling
I was put here for you
I've got a secret
You won't believe it
But I've got this feeling
I was put here for you
