Aquarius!

There's travel in your future when your tongue
freezes to the back of a speeding bus
Fill that void in your pathetic life by playing whack-a-
mole 17 hours a day

Pisces!

Try to avoid any Virgos or Leos with the Ebola virus
You are the true lord of the dance no matter what those
idiots at work say

Aries!

The look on your face will be priceless when they find
that 40 pound watermelon in your colon
Trade toothbrushes with an albino dwarf and give a
hickey to Meryl Streep

Taurus!

You will never find true happiness-what ya gonna do?
Cry about it?
The stars predict tomorrow you'll wake up, do a bunch
of stuff and then go back to sleep

That's your horoscope for today
That's your horoscope for today
That's your horoscope for today
That's your horoscope for today

Gemini!

Your birthday party will be ruined once again by your
explosive flatulence
Your love life will run into trouble when your fiance
hurls a javelin through your chest

Cancer!

The position of Jupiter says that you should spend the
rest of the week face down in the mud
Try not to shove a roll of duct tape up your nose while
taking your drivers test

Leo!

Now is not a good time to photocopy your butt and
staple it to your boss' face (oh no)
Eat a bucket of tuna flavoured pudding and wash it
down with a gallon of strawberry quik

Virgo!

All Virgos are extremely friendly and intelligent-except
for you

Expect a big surprise today when you wind up with your
head impaled upon a stick

That's your horoscope for today
That's your horoscope for today
That's your horoscope for today
That's your horoscope for today

Now you may find it inconceivable or at the very least a
bit unlikely that the relative position of the planets and
the stars could have a special deep significance or
meaning that exclusively applies to only you but let me
give you my assurance that forecasts and predictions
are all based on solid scientific documented evidence
so you would have to be some kind of moron not to
realise that every single one of there is absolutely true-
where was I?

Libra!

A big promotion is just around the corner for someone
much more talented than you

Laughter is the very best medicine...remember that
when your appendix bursts next week

Scorpio!

Get ready for an unexpected trip when you fall
screaming from an open window

Work a little bit harder on improving your low self
esteem...you stupid freak

Sagittarius!

All your friends are laughing behind your back.....kill
them

Take down all those naked pictures of Earnest
Borgnine you've got hanging in your den

Capricorn!

The stars say that you're an exciting and wonderful
person but you know they're lying

If I were you I'd lock my doors and windows and never
never never never leave my house again

That's your horoscope for today
