We Connect

Lyrics:

"We Connect"

We connect

When we're together, it's so perfect

Oh well you shock me with your white-hot love

I start to overload, I explode when we connect

It's no exaggeration, not imagination

You're the finest boy around

Playing with temptation, overnight sensation

With the boy from the wrong side of town

Give me your love and affection

Dance with me tonight

Give me all of your attention

Dancing in those lights

Come on
