Sometimes I swear I live with an angel  
Sent from above to watch over me  
He wears his love, just like a halo  
If he's not an angel, what else could he be

He wouldn't say he's anything special  
But sure, that's how all those angel's are  
but when he comes around  
miracles happen  
I felt the first one when he touched my heart

Chorus:

O I've never seen him fly  
on the wings of love  
he carries me  
heaven bound I'm mystified  
how with just one kiss he made me believe  
in angels, though I've never seen him fly-  
ooh ooh

This morning he walked up smiled and I kissed him  
I never lead on that he's not fooling me  
cause i think it's so cute how he says he's from houston  
I swear there's wings tucked up his sleeve

Chorus:

O I've never seen him fly  
on the wings of love  
he carries me  
heaven bound I'm mystified  
how with just one kiss he made me believe  
in angels, though I've never seen him fly-  
ooh ooh  
oOo oOo

Heaven bound I'm mystified  
how with just one kiss he made me believe  
in angels, though I've never seen him fly
