We'd better stay home tonight
It's gonna be a special date for
Ticklin' your appetite
I'll make you satisfied
'Cause you're my boy and I'm your raw girl
Hungry for my guest delight

Please let me be your fancy meal
Lay there and watch me
Wanna make you a special gift
Welcome to your kitchen dreams

Enjoy your tea, warm up your lips
Sit down and crave me

Tell me darlin'
I know you're starving
Watcha waitin' for?

Come on and taste me
I wanna be your shockin' flavour
Let's get crazy
Because your thrill is my own pleasure
I wanna spice up, your heart
Givin you my all
I wanna feed you with my love tonight

Do-do-do-don't kiss me
Just eat me
Do-do-do-don't-don't kiss me
J-just eat me
Ba-baby don't kiss me
J-just eat me yeah
I wanna feed you with my love tonight

I'm delicate and refined (be kind)
You better get me with your chopsticks
Yeah that's the way I like
Put down the fork and the knife
And no, no rush just take me slowly
A little at a time

You need to feel my spicy skin
I know you want me
Like the sweetest Japanese
My cuisine is ecstasy

You can't resist, give in to this pleasure of senses!
Ready steady no more waitin'
Here's your second course...

Come on and taste me
I wanna be your shockin' flavour
Let's get crazy
Because your thrill is my own pleasure
I wanna spice up, your heart
Givin' you my all
I wanna feed you with my love tonight

Do-do-do-don't kiss me
Just eat me
Do-do-do-don't-don't kiss me
J-just eat me
Ba-baby don't kiss me
J-just eat me yeah
I wanna feed you with my love tonight

The game has started it's dangerous hot hot!
You wrap me up just like a spicy sushi roll
Slave to my love you're under my thumb thumb..
Cause nothing's better than me!

Come on and taste me
I wanna be your shockin' flavour
Let's get crazy
Because your thrill is my own pleasure
I wanna spice up, your heart
Givin' you my all
I wanna feed you with my love tonight

Do-do-do-don't kiss me
Just eat me
Do-do-do-don't-don't kiss me
J-just eat me
Ba-baby don't kiss me
J-just eat me yeah
I wanna feed you with my love tonight
