"Red Rubber Ball"

It's a song about hope
When you're on the end of your rope
And you feel like pulling out all of your hair

'Cause it's fine and dandy
To take a little break
Calling timeout in the middle of the game

Red rubber balls go bouncing down the street
Red rubber balls go bouncing down the street

You're my friend, my best friend
You're my friend
You're my friend, my best friend
You're my friend

Red rubber balls go bouncing down the street
Red rubber balls go bouncing down the street

Red rubber balls go bouncing down the street
Red rubber balls go bouncing down the street
Red rubber balls go bouncing down the street
Red rubber balls go bouncing down the street
