Secret light, no reveries  
Got no time for memories  
Follow me, don't be afraid  
Don't hide away  
Window closed, the light is on  
Is it dusk or is it dawn?  
Telephone off the line  
What's on T.V.?

You gotta try  
To get away from this endless night  
You gotta try  
I'm gonna help you to see the light  
You gotta try  
To get out and see some city lights

Need some shelter for awhile  
From the pain and the phony smiles  
Are you ready?  
Is it time to trust someone?

You gotta try  
To get away from this endless night  
You gotta try  
I'm gonna help you to see the light  
You gotta try  
To get out and see some city lights

To get out and see some city lights

Secret life, no reveries  
Got no time for memories  
Follow me, don't be afraid  
Don't hide away  
Window closed, the light is on  
Is it dusk or is it dawn?  
Telephone off the line  
What's on T.V.?
