Anyway you see the light
you take the sun out of the night

And leave a star to show the way on the dark line.
Anybody can turn it up
make it swing and make it shine

Anyone can walk away from the dark line.

You're such a funny girl
who am I to understandz
What it is that made you land on such a funny world?
Oh
girl! Come along and take my hand

Let me be your funny man
it's such a funny world.

Such a girl!

Anytime you wanna fly
take a look into the wind

Run until you're far away from the dark line.

You're such a funny girl
who am I to understand? . . .

Anybody can turn it up
make it swing and make it shine

Anyone can walk away from the dark line.
Anytime you wanna fly
take a look into the wind

Run until you're far away from the dark line.
