"Graduation Day"

Visit "[Graduation Day](#)" on MotoLyrics.com

Though we all shall try, we may never meet again
(never meet again, never meet again)
School is almost over. Graduations near
Though we try to hide it, we all shed a tear
Happy days are over. School is near it's end
Though we all shall try, we may never meet again
As the school year ends, we will surely try
Try to face our friends. Try to say good bye
Happy days are over. School is near it's end
Though we all shall try, we may never meet again

What will happen now is not for us to say
We will each go on, our own and seperate way
As the years go by, Time will have it's say
But we will all remember graduation gay

When we stop to look back, we will surely say
The best day of our lives was graduation day

graduation, graduation
graduation, graduation
Graduation Day !!!!!!!
