I told some lies
And made you cry
Broke your heart
What a foolish guy
Played with your head
Cheated in bed
An' though you knew
Not a word you said

Chorus
Baby please come back to me
Here is where you ought to be
My days and nights are so lonely
Baby come back to me
Baby please come back to me
Here is where you ought to be
My days and nights are so lonely
Baby come back to me

Sit by the phone
Sit all alone
Waiting for you
To call and tell me
You want to come home
Mistakes I made
Threw love away
I know how it feels to loose
Everything
It hurts everyday

And I'm begging you

Chorus
