Dreamscapes and fantasies  
Evolve into reality when passion is pursued.  
The passion turns professional,  
And kills the mood.  
Finding symmetry so hard to achieve  
Inspiration loves misery.  
Blue skies are turning grey  
Let it rain, let it rain.

So long I've been waiting patiently;  
I'm not all alone.  
So lost, I've been searching patiently  
We're not all alone.

Routine rituals  
Physically and mentally, pressures made complete.  
Remember to appreciate the bittersweet.  
Finding symmetry too hard to achieve  
Expectations test abilities,  
Life is but a dream.  
In our sleep, let us see.

So long I've been waiting patiently  
I'm not all alone.  
So lost, I've been searching patiently  
We're not all alone.

Sleep well,  
All alone.  
Sleep well.

It feels like so long, I've been waiting patiently;  
I'm not all alone.  
So lost, I've been searching patiently  
We're not all alone
