You must've fallen from the sky  
You must've shattered on the runway  
you've brought so many to the light  
And now you're by yourself

There comes a point in every fight  
When giving up seems like the only way  
When everyone one has said goodbye  
And now you're on your own

If you need somewhere to fall apart  
Somewhere to fall apart  
The rules of cain ,the rights you've made  
The owls that caw, for those to blame  
The broken glass, the fool that asked  
The moving arrow to stop

You must've fallen from the sky  
You must've come here in the pourin' rain  
You took so many through the light  
And now you're on your own

If you need somewhere to fall apart  
Somewhere to fall apart  
The ruins of man, the bloody black  
The fool that bull the prouder hag  
The night the makes the rattle ack  
The wolves that follow the outed man  
The falling star the way we are  
The vern  
The rules that never ever mulitply

You must've fallen from the sky  
You must've come here on the wrong way  
You came among us every time  
But now you're on your own

If you need somewhere to fall apart  
Somewhere to fall apart  
The call you seek, the basket case  
The rules of thumb you have to break

The raging skull, The rag to the bull  
The nails that drag in either hand  
Well I will make my worker that  
I know this place  
I know this time

You must've fallen from the sky
