

Swell Season, The "Love That Conquers"

Visit "[Love That Conquers](#)" on MotoLyrics.com

In the time when your word was true
You gave your heart to the ones you knew
And at the dawn of every day there was a light that you
gave to me

You gave yourself to a love that conquers
Give everything to a love that conquers

And then you came
And you came real close
You gave the heart what it wanted most
You took your time and you made it clear
Maybe time will erase some things

You ran away with a love that conquers
You ran away with a love that conquers

Too long in the shadows
Too long in the dust
Give yourself to a love that conquers
