

## Swellers, The "On The Line"

You play it well  
The strong silent type I guess  
and vultures overhead  
I feel you now  
I know you'd do the same for me  
I'm not that far away, and I'll be waiting

You try to scream but there's no sound  
Cuz you're alone and I want you to come around  
Take your time it's all we have to make it through  
I'm on the line for you

You're one of us  
When the noose is tightening  
You need to cut it off  
Admit defeat  
It's not so bad when you have help  
I'm just a call away, so I'll be waiting

On the line for you  
Never second guess  
On the line for you  
I'm not that far away, and I'll be waiting
