I've got these chords
I can't play anymore
'cause they're all that I've known for so long.
Now they ruin all the songs.

This one's for you.
Yeah, this one's for you.
The old songs must be hard to believe.
I've ruined everything.

You'll be someone I,
I can learn from.
And over your voice,
I'm screaming,
"Love, it takes time, it takes time."
I wish I could take my time and your worries away.
I'll take my time and your worries away.

I'll be okay
'cause I've got the stars.
And you said you've been free for some time
and you prove it with the scars.
This one's for you.
Yeah, this one's for you.
If I'm lost before you hear all of thisâ€¦

You'll be someone I,
I can learn from.
And over your voice,
I'm screaming,
"Love, it takes time, it takes time."
I wish I could take my time and your worries away.
I'll take my time and your worries away.

This one's for you.
This one's for you.
I'll be okay
'cause I've got the stars.
